

# Cisco Training Schedule

March - June 2009

## Gulf Business Machines

Gulf Business Machines (GBM) is one of the largest IT solutions and service providers in the region, satisfying the technology requirements of local, regional and international businesses. The company provides services and support to IBM distributors throughout the region. With an historical presence that began in 1990, Gulf Business Machines today offers through its branches an extensive range of services from consulting to deployment, and integration to support, for a growing customer base throughout the Gulf.

As part of a unique Gulf-wide organization, our comprehensive value offerings meet the needs of all sectors of business and industry, and are complemented by a unique affiliation with the strength of the global IBM community of IT experts in the world's largest IT Company. We can further utilize the strength of over 30 international business partners also. Together we deliver award-winning, globally acclaimed solutions through our flexible and mobile workforce of over 800 IT professionals, ensuring extensive reach and unrivalled local market knowledge throughout the region.

Gulf Business Machines is a Gold Certified Partner and Learning Partner of Cisco Systems. GBM continues to grow, and has been the recipient of several prestigious awards from IBM and Cisco among others, throughout the years.

As the Largest IT organization of its kind in the region. GBM is well positioned to deliver the highest quality targeted learning and development services in UAE, Bahrain, Oman, Kuwait, Qatar and Pakistan.

## GBM is a Cisco Learning Partner

As a Cisco Learning Partner (CLP), GBM is a partner authorized to offer Cisco technical and product training using Cisco Certified Instructors. GBM had made an investment in certified staff, equipment and marketing to enable to deliver a broad range of Cisco training and to offer Authorized Cisco Content.

## Benefits of Cisco Training

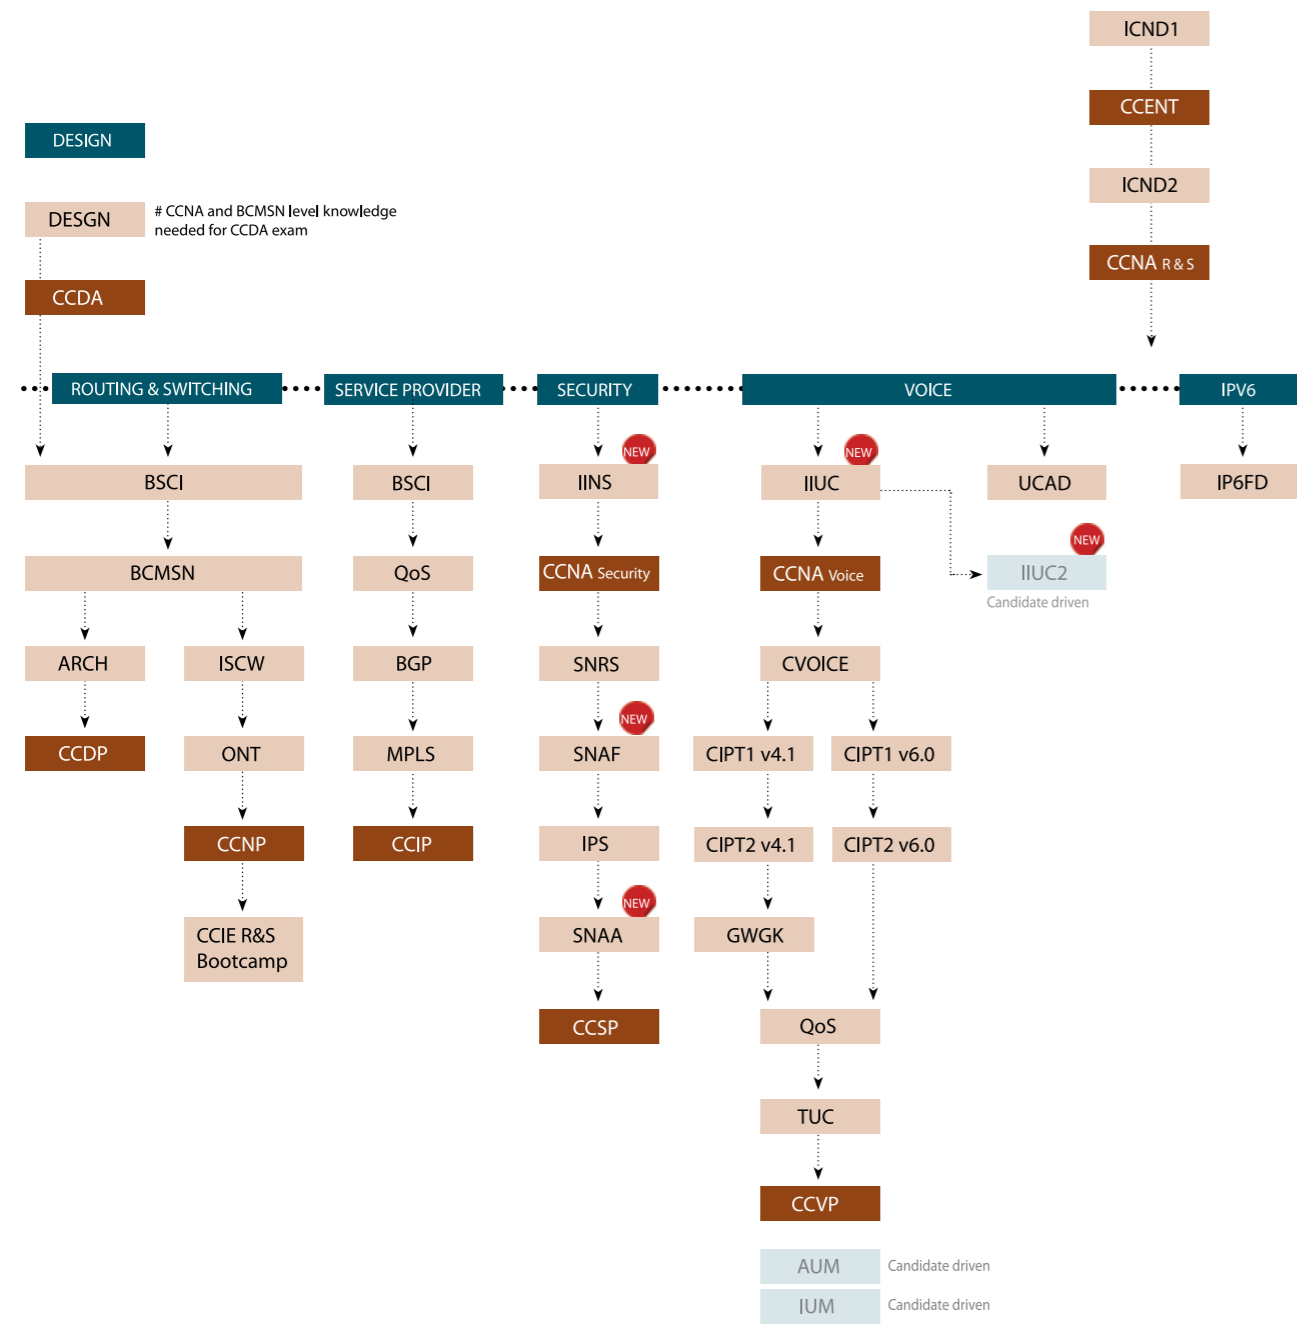

- Increased productivity: Every hour of end-user and IT professional training returns an average of at least 5 hours productivity to the enterprise.
- Increased IT investment return: The proficiency and skill with which people can perform their jobs using technology effectively and efficiently can contribute to organizational success.
- Increased competitive advantage: Staying ahead of the technology curve means you have a better chance of staying ahead of the competition.
- Increased employee loyalty: Employer investment in employee training and skills development is compensated by enhanced employee loyalty.

## Cisco Certification Path

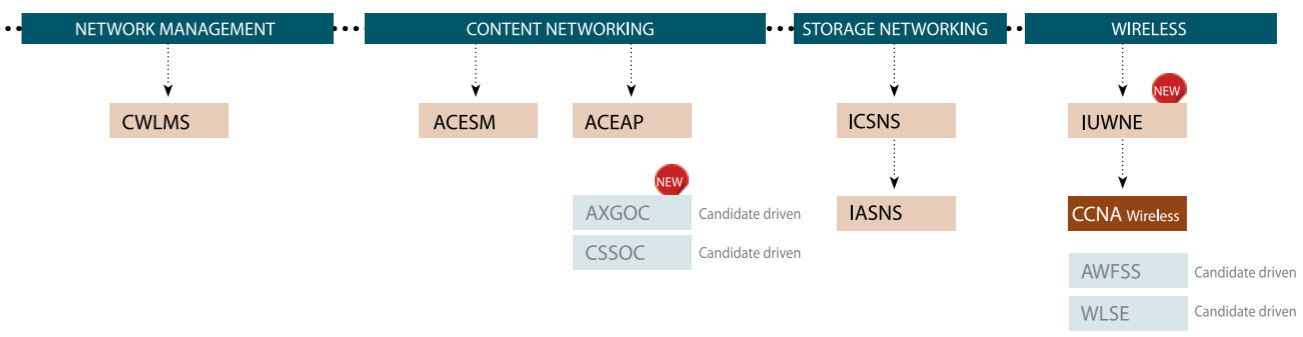

## Cisco Certification Path

Cisco launches 3 new CCNA concentration certifications building upon the popular 'CCNA network associate Routing & Switching' certification:

- CCNA Security
- CCNA Voice
- CCNA Wireless

These three new CCNA concentrations will serve as prerequisites for Cisco professional level certifications including CCSP and CCVP.

**NEW**

### General certification

|                          |   |               |        |            |            |      |     |     |  |  |  |  |  |  |  |  |  |  |  |  |
|--------------------------|---|---------------|--------|------------|------------|------|-----|-----|--|--|--|--|--|--|--|--|--|--|--|--|
| Entry Network Technician | CCENT   | ICND1         |        |            |            |      |     |     |  |  |  |  |  |  |  |  |  |  |  |  |
| Associate                | CCNA Routing & Switching  | ICND1         | ICND2  |            |            |      |     |     |  |  |  |  |  |  |  |  |  |  |  |  |
